

TSALA KOUO JUNIOR STÉPHANE

Computer Scientist | Programmer | Web Developer | Web Master

A web developer transitioning into Python backend development, with experience in frontend development and WordPress. I am currently learning Django, Flask, and FastAPI, and am working on personal projects to consolidate my skills in API design, database management, automation, and data processing. I am meticulous, self-motivated, and inquisitive, and am looking for internship opportunities to develop my skills within a Python backend team.

EXPERIENCE

CODSOFT (India) Feb. 2026

INTERNSHIP

- Python Programming
- Performing tasks
- Creating, Testing and deploying APIs
- Solving client-server communication issues

PHOENIX GROUP AFRICA (Cameroon) 2024 - 2025

WORDPRESS WEB DEVELOPER

- Websites & Progressive Web Applications Development
- Theme customization
- API Integration
- Deployment & Hosting
- Website maintenance
- Website redesign

OPTIMA CORPORATION (Cameroon) 2022-2024

FRONT-END WEB DEVELOPER

- Building user interfaces
- Optimizing performance
- Cross-browser compatibility
- Integrating APIs
- Maintaining code quality

DELTARHO INDUSTRIES (Cameroon) 2018-2019

IT ASSISTANT

- Support for Information System Management
- Network Setup
- Data Updates
- Software Management

EDUCATION

• MASTER OF COMPUTER APPLICATIONS (MCA)

Guru Kashi University - India (2025 - 2027)

Programming - Web Technologies - Databases - Data Structure & Algorithms - AI Tools - Software Project Management - Operating Systems

• WEB DEVELOPMENT TRAINING

Optima Corporation - Cameroon 2021

Web Development - Deployment & Tools - Back-end communication - Testing & Quality

• BACHELOR OF SCIENCE (B.SC.) IN MANAGEMENT INFORMATION SYSTEMS (MIS)

Higher Institute of Applied Technology and Management - Cameroon 2018

Software Development - Programming - Computer Networks - Database Management - Operating Systems - Analysis - Web Technologies - OOP

• WORDPRESS TRAINING

Scitis Tech - Cameroon 2015

Introduction to the Web and Setup - Getting Started with the Dashboard - Design and Customization - Plugins - Best Practices

TECHNICAL SKILLS

- Programming
- Web Development & Web Design
- Web Mastering
- Version Control & Deployment
- Vibe Coding
- Debugging
- Problem-Solving

WEBSITES CREATED

WORK ENVIRONMENT

- **Programming Languages:** Python
- **Versioning:** Git, GitHub
- **Backend:** Django, FastAPI, Flask
- **Web Development:** HTML5, CSS3, JavaScript, ReactJs, WordPress, Elementor, Bootstrap, Tailwind
- **Databases & DBMS:** SQL, MySQL, PostgreSQL, SQLite, SQLAlchemy
- **Containerisation:** Docker (basics)
- **Tests:** Pytest, Mock
- **Deployment & Hosting:** Render, Vercel, Hostinger
- **Tools:** Powershell, CLI, pgAdmin, SQLiteStudio, Postman, VS Code, PyCharm, Figma

RECENT PROJECTS (WEB APPLICATIONS)

• EXPENSE TRACKER APPLICATION (IN PROGRESS)

Description: A Web application that allows users to track their expenses and incomes, generate reports, and make income projections.

Stack:

- **Programming Language:** Python
- **Database:** PostgreSQL
- **Backend:** Django
- **Frontend:** DaisyUI (Tailwind CSS)
- **Versioning:** Git/Github
- **Testing:** Pytest
- **Containerisation:** Docker Compose
- **Deployment:** Render (Frontend), Coolify VPS (Backend)
- **AI Assistant:** ChatGPT
- **GitHub Link:** https://github.com/tsalajunior/expense_tracker_app
- **Live Demo:** coming soon

• AUTOMATED PIPELINE FOR THE COLLECTION, STORAGE, ANALYSIS, AND VISUALIZATION OF SOCCER DATA (IN PROGRESS)

Description: A continuous workflow that automatically retrieves raw data, cleans it, structures it, and transforms it into actionable metrics, without any manual intervention between each step

Stack:

- **Programming Language:** Python
- **Data Extraction:** Requests, BeautifulSoup (Web Scraping)
- **Database:** PostgreSQL (DBMS), Alembic (Migrations), SQLAlchemy (Modelisation), Pydantic (Validation)
- **Backend:** FastAPI (API REST)
- **Data Manipulation:** Pandas
- **Data Visualization:** Plotly
- **Frontend:** Streamlit (data scripts conversion into interactive web applications/UI)
- **Versioning:** Git/Github
- **Testing:** Pytest
- **Containerisation:** Docker Compose
- **Deployment:** Render (Frontend), Coolify VPS (Backend)
- **AI Assistant:** ChatGPT
- **GitHub Link:** https://github.com/tsalajunior/transfermarket_analytics
- **Live Demo:** coming soon

LANGUAGES SKILLS

- **ENGLISH:** Lower-Intermediate (B1)
- **FRENCH:** Native Speaker (C2)

CERTIFICATES

UDEMY

- Certificate of Completion of Python Developer

LINKEDIN LEARNING

- Certificate of Advanced Python Working with Databases
- Certificate of Advanced SQL for Application Development
- Certificate of API Testing Foundations
- Certificate of Docker Foundations Professional
- Certificate of HTML CSS and JavaScript Building the Web

OTHERS

- Wordpress Web Development Certificate

HOBBIES

- Sports
- Travelling
